BABSON DISCUSSES
EDUCATION

(Exclusive NEWS Feature)

Do you hope you will be able to send your children to college something between now and 1964? If you expect them to get a sound education, and you to get your money's worth, much must be done. Both teachers' salaries and their efficiency (which is now comparatively low) must be increased.

COLLEGE PROBLEM IS SERIOUS

Fifty years ago, only about 4 percent of the youth of college age were able to go to college. Two great events on our national scene boosted enrollments sharply — the depression and the G. I. Bill. Pre-war, about 15 percent of our youth of college age attended such schools. Between 1945-49 a little better than 25 percent were enrolled. Then, the number shrank during 1950-52. Chiefly responsible for this drop was the fewer number of births in the 1930-32 depression.

More Donations, Less Money:
Red Feather Misses Goal

Arlington's 1955 Red Feather Campaign had some 337 more workers and 105 more donations than was the case the previous year, yet still fell way short of its \$30,000 goal.

William Patterson, local chairman said in a recent release to the NEWS:

"I am sorry to report that the results of the Red Feather Campaign are far from gratifying. Although we received a greater number of gifts than in any previous campaign, the amount collected fell far short of other years. Our receipts totaled only \$22,087, \$4346 less than was collected in the previous campaign, despite the fact that we had 815 workers against their 478.

"I know many will find this hard to understand, even after a care-

ful study of our figures. My answer is 'dollar givers.' Our record show that over 50 per cent of the gifts received were dollar donations. Even if Arlington's fifteen thousand families had all given one dollar each, we could not have reached our goal. I believe 'dollar giving' will be the problem of future campaigns. It is definitely the result of too many drives.

"May I at this time extend my sincere thanks to all those who so graciously lent a helping hand."

Mothers March
At 7 Tonight

The famous "Mothers March on Polio" will climax the 1955 Arlington March of Dimes campaign tonight at 7 p.m. Fire whistles, sirens, loudspeakers, and church bells will signal the start of the greatest single all-out effort of the drive.

Nearly 1000 of our "Mothers" will respond to lighted porchlights signifying willingness to contribute to the fight against Infantile Paralysis.

A large group of Auxiliary Police will patrol the streets to protect the "Marching Mothers" during their momentous hour. Civil Defense "hams" will direct a network of radio patrol cars from headquarters, donated by a generous civic-minded Shop and Shop Store at 489 Mass. avenue.

Last year the National Foundation spent over \$12,000 on Arlington's 28 polio victims, mostly children. Their future is in our hands! Please turn on your porchlight. If no one calls at your home by 8 p.m., please telephone Arlington 5-4407.

One Injured As
Two Cars Collide

A car owned and operated by Dorothy Clune, Anna road, Woburn, proceeding out of Park avenue into the intersection of Mass. avenue, Tuesday, was in collision with a car operated by John Pruner, Jr., 231 Mass. avenue, Arlington, outbound on Mass. avenue.

The second car in swerving to the left to avoid the collision, collided with a truck operated by Fred Kaplan of Dorchester parked on Mass. avenue.

Viola Bradley, a passenger in the first car, claimed injuries and was taken to Symmes Hospital. All vehicles were damaged.

Mrs. Edith Keatin, of Lowell, a passenger in her husband's car reported injuries when the car was forced off the road at Mystic street by an unidentified vehicle.

Miss Martha Helen Dushuttle, daughter of Mr. and Mrs. Ervin J. Dushuttle, 215 Oakland avenue, Arlington, became the bride of Mr. Salvatore J. DeFrancesco, son of Mrs. Michael DeFrancesco, 36 Tufts road, Arlington, at the Park Avenue Congregational Church, January 8, at 3 p.m.

Rev. Milton F. Schadegg officiated at the ceremony.

The bride was attired in a full length gown of embroidered taffeta and tulle with portrait neckline, fitted bodice and bouffant skirt. She wore a fingertip veil with cap

of lace trimmed with seed pearls; her flowers were white baby iris and an orchid.

Matron of Honor Mrs. Amos L. Proctor, sister of the bride, of Bethlehem, Pa., wore a coral taffeta waist-length gown with matching headpiece; her flowers were picardy gladiolus and acacia.

Bridesmaids Mrs. Frank Anderson of Woburn and Mrs. John Huber of Lincoln wore coral taffeta waist-length gowns with matching headpieces; their flowers were picardy gladiolus and acacia.

Janet L. Proctor, niece of the bride, from Bethlehem, Pa., as flower girl wore an aqua crystal-lette gown and carried an old fashion bouquet.

Best man was Amos L. Proctor of Bethlehem, Pa., while Frank (Continued On Page Two)

Hurt In Crash

An Arlington girl and three other teen-agers from Medford were taken to Winchester Hospital Friday night after the car in which they were riding left the road and crashed into a pole on Main street, Winchester, near the Medford line.

Lucinda Slagle, 16, Hutchinson road, Arlington, and Roger Stillman, 17, of Woodland avenue, Medford, driver of the car, suffered lacerations of the face and head, while Richard Bogosian, 17, Valley street, Medford, and Claire Mornane, 17, of Orchard street, Medford, were treated for injuries to the back and legs.

The four were on their way to a dance in Medford at the time the accident took place.

Civil Defense
Names Routes

Summer street, Mass. avenue, and the Concord Turnpike have been designated as evacuation routes according to a release from state Civil Defense headquarters. It is thought that evacuation could take place from the three Mass. Civil Defense areas in three hours.

Three Seek Selectmen Posts,
Four In School Board Race

Arlington's "Political Pot" is far from full as the deadline for candidates who intend to run for election for Town office draws near. Monday night, January 31, at 5:00 p.m. is the deadline and at press time only four residents were planning to run for the three vacant school committee posts; three for the two selectmen posts; and two for the post on the Housing Authority.

Running for three year terms on the local board of selectmen are present members of the board Marcus Sorensen and George Harris and candidate James A. Coffey. There were three running for the selectmen's post last year when some thirty-one per cent of the Town's voting population went to the polls to cast 9978 votes.

The four candidates running for the three school committee positions include incumbents Carl Allen, and Mary Porteus and candidates David Ashton and Charles Kent. This is in comparison with some 10 residents who ran for the school posts last year.

In the assessor contest there is no contest with present chairman of the board William Hauser running unopposed. Seven ran for the post last year.

In another contest Joseph Vahley, incumbent, is running against Thomas Prior for the 5 year term on the Housing Authority.

Candidates for Town Meeting Membership are increasing and a large majority of the 10 precincts had more candidates than vacancies at press time.

Only precincts 3, 7, 9 and 14 lack candidates to fill the number

of available vacancies. Of these, precincts 3 and 9 are far from filled, while precincts 7 and 9 lack only 3 and 2 candidates respectively to match vacancies with candidates.

TOWN HALL Press Conference

Local representatives and senators will meet with members of the Board of Selectmen February 4 to discuss the drainage situation in East Arlington and vicinity. They have already pledged support to the town to help alleviate the situation.

No actual roadwork will be done on Apptieton street until after the cold weather breaks. However, work on drainage will begin as soon as possible.

Reports from various Town Departments which will appear in the Town Report are coming through now. Many reports had to be held until the financial records of the town were closed, January 15.

Patrolman Charles Tynan of the local police department will be retired effective January 30. He will receive a three-weeks vacation plus his pension.

Plans are being made relative to the laying of the cornerstone for the Town Hall addition. Final plans for ceremonies are incomplete at the present time.

The Public Works Grade III operators are in the process of being taught the "Why's and where's" of heavy equipment such as bulldozers, etc. There are 12 such operators and 11 have been thoroughly trained.

A representative from the Town Engineer's office will attend a meeting of the Lexington Planning Board at the Lexington Town Hall, January 31, relative to the discussion of a sub-division plan near Lowell street. If a definite plan of action is approved, Boston Edison plans to establish a sub-station on the land.

The increased insurance rates of 150 per cent for windstorm and hurricane damage, etc., has decreased the Arlington rate instead of increasing it. The new rate in Arlington for a three year period is \$132 per hundred compared to a previous rate of \$135 per hundred for the insurance taken out last April.

New loud speakers will go on trial at the Town Hall, at least temporarily replacing the ones now in operation.

The Town Manager will attend a meeting of the Town and City Managers' Association at the Pillar House, Newton, January 28.

Two jurors have been selected for the jury pool in Cambridge, March 7: Kenneth Secord, 117 Highland avenue, and Stuart Monro, 35 Woodbury street.

The census committee for motion pictures appointed by the Arlington Woman's Club has reported co-operation from the local theatre managers, and that the local theatres are generally showing good motion pictures.

The Arlington Board of Selectmen has removed a restriction on the local Ford Agency which allowed the display of only five used cars in an area next to the agency's garage.

The Town now has the opportunity, according to a communication from Edward Dana of the MTA, to utilize MTA land at the Heights for offstreet parking. The MTA does not want to sell the land.

LEGAL NOTICE BOARD OF SURVEY NOTICE

At 7:45 P. M., Monday, January 31, 1955, there will be a public hearing in the Selectmen's Room, Town Hall, Arlington, Mass., on the application of Edward M. Cartullo concerning the laying out or locating and constructing the street or way in the Town of Arlington designated as Nicod Street and shown on a plan entitled "Plan and Profile of Nicod St., Ext. Arlington, Mass., Hor. Scale 1 in. = 40 Ft., Ver. Scale 1 in. = 4 Ft., Jan. 12, 1955, Fred A. Joyce, Surveyor, Belmont, Mass., and any amendments thereof or additions thereto.

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (494:10):

"Divine Love always has met and always will meet every human need. It is not well to imagine that Jesus demonstrated the divine power to heal only for a select number or for a limited period of time, since to all mankind and in every hour, divine Love supplies all good."

Among the passages to be read from the Bible is the following from Psalms (103:2-4): "Bless the Lord, O my soul, and forget not all his benefits: Who forgiveth all thine iniquities; who healeth all thine diseases; Who redeemeth thy life from destruction; who crowneth thee with lovingkindness and tender mercies."

RED FEATHER FALTERS

Changes are Arlington's Red Feather deficit will be "bailed out" by the Mother organization in Boston, but if the situation which materialized during the recent campaign should come about another time, there is a good chance that the activities of Red Feather organizations such as Girl Scouts, Boy Scouts, Visiting Nurses, St. Vincent de Paul, Catholic Women's Guild, Campfire Girls, Boys Club, and Social Service League will be sharply curtailed in the town.

The results of the last campaign were, to say the least, "alarming." The goal of the community was \$30,000; the amount finally raised was \$22,387, and this only after more time was given, and late letters were sent to remind those who might have forgotten. The previous campaign netted a total of \$26,433.

The situation becomes more alarming when it is realized that some 815 workers were out for the 1955 drive while only 478 turned out to help raise the \$26,433 during the previous campaign. Critical is the word for the situation when we realize that despite the large increase in workers and despite an overall increase of 165 donations from 4975 to 5111 the campaign not only fell well short of its goal, but fell short of its total reached during the previous year.

One of the biggest factors causing this situation is the existence of "too many drives." Yet each of these drives, fund-raising or campaigns has its place and serves a definite need in the community.

Admittedly the knock at the door five, ten, or fifteen times a year with the resulting request for money for this or for that drive, regardless of its worth, has made the town of Arlington along with many other towns a town of "dollar givers." In other words each contributing party sets aside a dollar for this cause or for that charity, which is all well and good, but recent results show that it has become evident that a dollar per contributor is not enough.

During the 1955 Red Feather Campaign over 50 per cent of the donations received were of the dollar variety. In many towns and cities some of the "slack" of the "dollar giving" can be taken up by large donations from the diversified industries in the area. However, since Arlington's industries are generally speaking "few and far between" it would seem that the burden should be taken up elsewhere. Sad to relate it wasn't.

According to the figures from the recent campaign released this week by the community Red Feather chairman the failure of the local campaign was caused by a general, although in some cases slight lag in amount of donations; a drop in both number of donations and amount of same by groups categorized as business, banks, industry, public employees and schools; and a drop of \$2,305 in amount of advance gifts.

It could be that this failure of the Red Feather Campaign to reach its goal this year was "just one of those things." We hope so, but from here it looks more like a definite trend sparked by the so-called "dollar giving." Regardless of whether the last drive was just one of those things or a definite trend in the "wrong direction" we should take stock now. It is our duty to make sure our youth have the best possible guidance and our afflicted the best possible care.

Roger Babson's Column

(Continued From Page One)

But, 1952 saw a 1.5 percent increase in college enrollments over 1951; and 1953 rose 4.8 percent over 1952, to that again about 25 percent of our youth of eligible age were in college. 1954 fall enrollments probably registered a 6-8 increase.

CAN COLLEGE FORECASTS BE TRUSTED?

If you project to 1970 the number of children already born, you will have a 16 percent increase in the youth of college age by 1960, a 46 percent increase by 1965, and a 70 percent increase by 1970. And if an increasing percentage of our youth of college age go on to college, enrollments could double by 1970.

The above is based on the assumption that we shall continue to make more educational opportunities available for our youth, as we always have. Educators claim that by 1970 a good third of our young people of college age may enroll. This would more than double student bodies, and perhaps require double the number of teachers and much more classroom space. Personally, I believe this is like forecasting 500 for the India trial Stock Average. I question such figures.

THE TEACHER PROBLEM

The teacher shortage will not be limited to colleges. Our elementary and secondary schools may need about 140,000 new teachers each year for the foreseeable future. Yet, it is estimated by the experts, that only about half the number of teachers needed for the public schools alone will be graduated from college.

But, someone will have to teach your little Johnny and Susie. If adequately trained teachers are not available, persons with substandard qualifications will have to be pressed into service. Now, why is there a teacher shortage? The answer, in part, is that teachers are underpaid.

SALARIES COMPARED

Public-school classroom teachers' salaries averaged about \$3,600 for 1953-54. Teachers in many business and engineering college graduates got as a starting salary on their first jobs a year or so ago. And 1953-54 was a good year for the teachers too, for it represented an average salary rise of 4.8 percent over the previous year.

Still, 14.1 percent of the 1,028,809 teachers received less than \$2,500, and only 14 percent received \$4,500 or more. College teachers' salaries are very little higher. The median income of physicians, on the other hand, was about \$11,200; lawyers, \$7,750; dentists, \$7,100; but with much higher top figures attainable. How can we hope to hold good men in top educational jobs which pay \$5,000-\$8,500 when their counterparts in industry offer ceilings unlimited?

TAXES SHOULD NOT BE RAISED

If we want capable teachers, we shall have to pay wages competitive enough to encourage them to make the tremendous outlay of time and expense needed for their education. To hold our able teachers, we shall have to up salaries. This means higher taxes.

I forecast that our Democratic Society, with full employment, can raise not only as we provide adequate schooling for our youth, with a moderate tax rate. This means that our educational leaders must provide far more efficient methods of learning by doubling the use of present facilities. What industry could survive in this competitive era with its factories being used only six hours per day?

THE POLICY WAY

What are you doing about your life? Have you got it insured for your dear wife? The children too will need that care. To feed and clothe. Do beware! Sickness may sneak up and strike. You're not immune — we're all alike. While you are ill and convalescent. A health policy you will bless.

For it will pay for your daily care. Fill the cupboard so they won't be bare. The bills won't pile up this way — If you play smart the policy way.

Two Harris Bills Before Committee

A bill, entered into the State Legislature by George A. Harris, Chairman of the Board of Selectmen, through the Massachusetts Selectmen's Association, comes before the Committee on Public Service this morning.

The bill would set up a study committee of legislators to investigate the phenomena of all state laws pertaining to police and fire personnel as related to other municipal employees. The objective of the bill is to equalize conditions of policemen and firemen throughout the state so that they would not be deprived of benefits allowed to other types of town employees.

At the same time another bill of Chairman Harris comes to the committee the same day. It is to have the General Court pass the same type of bill that, in the Worcester-Toronto occasion, allowed municipalities to pay police and firemen overtime. Hurricanes Carol and Edna found local authorities enabled to pay municipal employees overtime but this privilege was barred in the case of police and firemen. Many of them worked up to 85 extra hours in over two weeks without recompense for the extra work.

Since Mr. Harris entered the bills in the early part of the winter, the overtime situation has been resolved by a ruling of the Town Council that if excess money was in the budget for wages, overtime could be paid in the emergency. Local officials still feel that the state laws should cover the situation with greater clarity.

Heart Campaign To Start Here February 1: Continues Thru Month

The continuing battle against heart disease, our nation's number one health problem, will seek the support of the citizens of Arlington beginning next Tuesday, February 1 when the Massachusetts Heart Association starts its month-long annual appeal for funds. It was announced yesterday by Joseph P. Greeley, Arlington chairman.

"The highlight of the 1955 Campaign will be Heart Sunday, February 20, when volunteers will call upon their neighbors for contributions to support the Heart Association's year-round program of research, education, and community services," Mr. Greeley said.

"If I were to tell you that 800,000 people died of heart disease last year it might just be another figure in the newspaper. But if I were to tell you that this 800,000 represented the population of the City of Boston it might mean a great deal more to you. Yet despite this death toll, and despite the fact that 10,000,000 Americans are suffering from heart disease, the outlook is hopeful and the doctors are optimistic," he continued.

"No goal has been set either locally or nationally by the Heart Fund. It is the belief of the Massachusetts Heart Association that a person's right not to give is as important as his right to give. Our only goal is that everybody in our community be given the opportunity to give. It is my hope that the

citizens of this community will take heed of the Heart Fund's slogan, 'Think of your Heart, and give thoughtfully.'

"The fate of millions of Americans, now living and yet unborn, depends upon the speed with which research scientists find the answers to the following three conditions — hardening of the arteries, high blood pressure, and rheumatic fever — the cause of more than 90 percent of all heart disease.

"In their quest for new knowledge about the basic causes of these three conditions, research scientists have developed a great many promising clues which are being intensively followed-up. Moreover, they have made possible great progress in the diagnosis, prevention, care and treatment of the heart diseases.

"Let me just tell you a few of the more dramatic advances which I am told, are saving hearts today. 'Initial and recurrent attacks of rheumatic fever are being prevented through prompt and effective use of antibiotics.'

"Antibiotics have made possible a recovery rate of better than 75 percent in subacute bacterial endocarditis.

"In many thousands of cases, it has been demonstrated that surgery can often repair heart valves, correct certain abnormalities, and repair other heart conditions previously considered hopeless.

"Relief is being brought to many thousands of sufferers from high blood pressure through new drugs, new dietary controls and new therapeutic techniques.

"The above are some of the reasons why your Heart Association is in business. Heart dollars have made possible these great advances and with our continued support of the Heart Fund we may all expect New Hope for All Hearts," Mr. Greeley concluded.

PUBLICITY CHAIRMAN

Mr. Joseph P. Greeley, Chairman of the 1955 Heart Fund Campaign in Arlington, yesterday announced the appointment of James Dunbar, publisher of the ARLINGTON NEWS as Publicity Chairman.

Co-captain Paul McLaughlin paced the locals to the win with 15 points while left forward Delbor was the big scorer for the losers as he netted 12 points.

Arlington's accuracy at the foul line helped chalk up the winning margin. The winners hit 14 times on free throws while the losers, with only Kingston, 3, and Yazajian, 2, dropping in foul throws, were able to score only 5 times.

The locals outscored Watertown 20 baskets to 17 from the floor. Although McLaughlin was the only one able to score more than 10 points for the winners with 6 baskets from the floor and 3 foul shots, 7 other members of the winning squad chipped in with from 2-7 points each.

Arlington Woman's Club Hears Of "Antiques For The Amateur"

The Library Hall of the Robbins Library was filled to capacity last Thursday morning when Mrs. Kathleen Blaney presented "Antiques for the Amateur" to members and guests of the Arlington Woman's Club.

Mrs. Einar T. Larsen, Vice President and Program Chairman, introduced Mrs. Blaney, stating that she was a classmate of past president, Mrs. Americo Chaves.

Inasmuch as the field of antiques is very broad, Mrs. Blaney stated she would speak briefly on the types of antiques most frequently found in New England homes, such as Wedgwood, in its various forms, and heavy earthenware pottery, antique and modern. She asked "How old must a piece be to be antique" stating that the answer usually is 100 years. She said she would like to give her definition which is "An antique is anything that was admired in the parlor by the first generation, ignored by a second generation and appeared in a museum by a third generation." She exhibited blue-and-white ware of various potters in Staffordshire, England; lustre ware which was first made by the Mohammeds and shipped to England, explaining that there were three kinds of lustre ware—silver or platinum, gold or purple and copper or brown, the silver or platinum being the richest and bringing the highest price.

Glass she stated is made up of many materials, not one of which is transparent. Not all Sandwich glass is pressed glass and not all pressed glass is Sandwich glass. Among the items in her display of glassware were a pair of old lamp bases in Sandwich glass, a vase of ruby overlay made of gold in Bohemia and a hand-hammered piece.

Included in her antique exhibit were a number of beautiful shawls and stoles: from Turkey, a stole of gold metal worked on net; from Paris, a stole elaborately embroidered on fine net; from Armenia, a gold shell shawl; from Panama, a gold shell shawl; from India, a white shell shawl. Armenia and India are the only two countries, while make shell shawls. From France, Italy and China, beautiful shawls with hand-tied fringe. As Mrs. Blaney draped a Spanish shawl around Mrs. Einar T. Larsen, whom she used as a model, she stated that the Spanish shawl does not come from Spain, but is so named because of the wearing of these shawls by the past grand mistresses in Spain who wear a different shawl for every occasion, the most brilliant being worn at the bull-fighting parties.

A stole of challis with a crimped-wool fringe was interesting as the fringe was crimped by means of the old-fashioned curling iron used for the hair; from the Azores, a gossamer piece of cobweb veiling made from the fibre of the century plant and crocheted with a two-eared crocheted hook. Mrs. Blaney exhibited a brilliantly colored evening cape which she had made from a mans antique Chinese skirt.

The highlight of her lecture was the explanation of how to differentiate between a Paisley and a Cashmere shawl. She explained that the Cashmere shawl is made from the inner coating of hair from goats found in the State of Cashmere in the Himalayan mountains, and because of this inner coating of hair, these goats are different from any other goats in the world. They are known as the Cashmere goats. The cashmere shawl is made in segments and it takes four men one day to make one-quarter of an inch of the shawl, many of which are 108 or more inches long and approximately 84 inches wide.

Mrs. Blaney brought her lecture to a close with a story reported to be the origin of the design found on the Willow Ware, the most famous and most popular of all wares.

Coffee hour was held at 10:00 a.m. with American Home & Antiques Committee and Motion Picture and Conservation Committee as hostesses, assisted by chairmen of the Social Committee.

MOTHERS:

Whether you wash by hand or machine, the biggest helper to save you time and work is plenty of good hot water. Why not RENT an Automatic All-Craft Gas Water Heater and have all the hot water you need—for only \$2 per month rental, plus the modest fuel charge. We deliver and pay for normal installation. If you move away or aren't completely satisfied, we cancel the rental agreement. For complete details call or write Mystic Valley Gas Co., Arlington 5-2000.
